

Yeah. Right.

The Fatalitees

life's supposed to be full of fun
good deeds are always done
success is found one by one
no need for knives and no need for guns

good times have begun
pleasure for everyone
no cause for concern
happiness at every turn

yeah. right.

justice rules over our land
laws are simple and easy to understand
punishment's levied with an even hand
equal opportunity for every man

criminals will be tried
special interests denied
no groups needs neglected
individual rights protected

yeah. right.
