What She Came For

ESG

I got a question for you
I got a question for you
Where did you get your name from?
Where did you get your name from?
I got a question for you
Where do you see yourself
In five minutes time?
With a laugh like that or a look like that
You make us all feel gauche like it's a sweaty joke
But with a laugh like that or a move like that
You make us all just go, la, la, la, la
Woah, look out
You're what she came for
You're what she came for
No question, no doubt
Woah, look out
You're what she came for
Knows what she came for
No question, no doubt, woah
You're what she came for, oho
I got a question for you
Another question for you
Oh, do you feel the
Oh, do you feel the pressure?
Why you're wearing?
What you're wearing?
Where will your life be gone
In five minutes time?
So say something stupid
You know that you love to
Woah, look out
You're what she came for
You're what she came for
No question, no doubt
Woah, look out
You're what she came for
Knows what she came for
No question, no doubt, woah
You're what she came for, oho

You're what she came for, oho
You're what she came for, oho
You're what she came for
You're what she came for
You're what she came for
