

# Slippin' Away

## J.D. Walker

Back in my old home town  
There were long summer days  
And there were leaves on the ground  
    And it was too cold to play  
    The city's colder than cold  
    It's faceless and gray  
And all the dreams that you hold  
    Keep slippin' away  
Chorus:  
Slippin' away, slippin' away  
    Little by little, day by day  
Slippin' away, slippin' away  
    Little by little and day by day  
    I saw an old friend of mine

Asked if he was ok  
And he said everything's fine  
But his eyes filled with pain  
Yeah, he had nothin' to lose  
    He had nothin' to say  
He feels worn out and used  
    And slippin' away  
Chorus  
Better put up a fight  
Start right here today  
It's time you start right  
Before you just slip away  
    Chorus x 2
