Make You My Baby

[Joe](#)

Yo, I wanna talk about tonight, you know
What's gonna happen, you and me, listenI hear your body callin, baby rescue me
Girl, you're a prisoner and you need to be set free
Your body's speakin' words that only my body can hear
I feel the time is right 'cause we're alone up in hereStarin' at me as if you want me right now
Girl, I know exactly what you need
(I know what you need)
So many nights I've dreamed of layin' you down
And because you're a special lady
And tonight I'm gonna be making you my baby(Make you my baby, make you my baby)
Make you my baby
(Make you my baby, make you my baby)
Oh, make you my girlfriend
(Make you my baby, make you my baby)
Oh, yea, tonight
(Make you my baby, make you my baby)
Di di, da da, da daBaby your voice is whisperin', tellin' me to take control
Our hearts are beatin' fast as we're takin' off our clothes
Girl, I can feel the heat gettin' strong, I'm startin' to sweat
Baby, you and me, makin' history sexually, you starin' at meStarin' at me as if you want me right now
I know you want me baby
Girl, I know exactly what you need
(I know what you need)
So many nights I've dreamed of layin' you down
(Layin' you down)
And because you're a special lady
And tonight I'm gonna be making you my baby(Make you my baby, make you my baby)
Ooh, gonna make you my baby
(Make you my baby, make you my baby)
Ohh, gonna make you my girlfriend
(Make you my baby, make you my baby)
All mine, gonna make you my baby
(Make you my baby, make you my baby)
Tonight, this bedAfter tonight you'll be baby, a part of me
(You'll be, you'll be, you'll be, you'll be)
And we will make history baby, sexually
(You'll be, you'll be, you'll be, you'll be)
Girl, this chemistry last all eternity
(You'll be, you'll be, you'll be, you'll be)

Because you're a special lady
And tonight I'm gonna be making you my baby(Make you my baby, make you my baby)
(Make you my baby, make you my baby)
(Make you my baby, make you my baby)
...
