They just keep swallowing us
They just keep hustling us
They just keep beating us down, downThey just keep holding us back
Wished I could just see the attack
They just keep beating us down, downIt's time we took up a stand
Take a wrong out of our hands
Because right now we just don't realizeWhat's next?
Look what they've done to us
We don't know who to trust, ohWhat's next?
It's just so meaningless
Wish I was separate in this, ohTake us out to just put them in sand
Pull the child right from the man
It's not hard to get swallowed up
Time explode is just fucking us upSee the lies that he has sown
Fucks us up then he has us done
Fucks us up then he has us done
This time he has taken has just left us thinkingWhat's next?
Look what they've done to us
We don't know who to trust, ohWhat's next?
It's just so meaningless
Wish I was separate in this, oh
(Wish I was separate in this, oh)They just keep swallowing us
We don't know who to trust
They just keep swallowing us
We don't know who to trustThey just keep swallowing us
We don't know who to trust
They just keep swallowing us
We've got each other to trustThey just keep swallowing us
We've got each other to trust
They just keep swallowing us
We've got each other to trust
They just keep swallowing usWhat's next?

Look what they've done to us
We don't know who to trust, ohWhat's next?
It's just so meaningless
Wish I was separate in this, oh
