

Hold On (The Break)

Walk Off the Earth

I never wanted it to break
I thought we'd put it all behind us
Ever since that day
All I wanna do is find us
Now I'm falling down
I'm falling down without you
So I'm calling out
I'm calling out to find you You gotta hold on to what you got, babe
It ain't always greener on the other side
We ain't rich but we're worth a lot, babe
I wanna see the world again in my mind you know
Come on I'll love you like that
It ain't always greener on the other side
Come on I'll love you like that
I wanna see the world again in my mind you know Even when I make mistakes
You would always bring me higher
We got caught up in our wings
Like the time we had the bonfire
There was no one else, no one else around you
So I'm calling out
I'm calling out to find you You gotta hold on to what you got, babe
It ain't always greener on the other side
We ain't rich but we're worth a lot, babe
I wanna see the world again in my mind you know
Come on I'll love you like that
It ain't always greener on the other side
Come on I'll love you like that
I wanna see the world again in my mind you know
You gotta hold on to what you got, babe
You gotta hold on to what you got, babe I didn't know just how much I loved you girl
Until you've hurt my heart and destroyed my world
When we're apart I'm a perm without a curl
'Cause ever since we started you've been an ocean to my pearl
You and I together 'till dove all protects us
Making much sense as a love between fascists
But we'll be long time rocking great nine classes
I know we'll be together till this life passes You gotta hold on to what you got, babe
It ain't always greener on the other side
We ain't rich but we're worth a lot, babe

I wanna see the world again in my mind you know
Come on I'll love you like that
It ain't always greener on the other side
Come on I'll love you like that
I wanna see the world again in my mind you know
You gotta hold on to what you got, babe
It ain't always greener on the other side
We ain't rich but we're worth a lot, babe
I wanna see the world again in my mind you know
Come on I'll love you like that
It ain't always greener on the other side
Come on I'll love you like that
I wanna see the world again in my mind you know I love you, love you, love you like that
And I watched you walk away
I love you, love you, love you like that
Never wanted it to break
I love you, love you, love you like that
And I watched you walk away
I love you, love you, love you like that
Never wanted it to break
