

# Rain Cloud

## Sweet Talk Radio

RAIN CLOUDIf you think you know this weather  
Stick around, it will change  
If you think you know this man  
He will do the sameHe's always been a quiet man  
Some days he's quiet like a hurricane  
Our love is like a coastal town, storm winds blowing 'round  
Now I'm waiting for the rain  
'Cause he's rolling like a rain cloud  
When his arms get heavy, he lets it all fall down  
Floods come, water so deep  
I swear sometimes we're both going to drown  
He's rolling like a rain cloud  
Rolling like a rain cloudHe's got thunder in his head  
Sometimes lightning's coming out of his mouth  
I'm going to keep some candles burning tonight  
In case all the power goes outBecause he's rolling like a rain cloud  
When his arms get heavy, he lets it all fall down  
Floods come, water so deep  
I swear sometimes we're both going to drown  
He's rolling like a rain cloud  
Tears fall from his eyes  
There's nothing I can say  
No words are going to keep us dry  
He's rolling like a rain cloud  
But lost inside somewhere  
Is a man who used to be  
Such a blue sky
