

Vox Populi

Sepultura

No soul over body
No body without soul
No brain, no information
No vision, no protectionNo church in politics
No profit in religion
No suffering without cost
All I believe is freedomNo minds without solutions
No laws without our vote
No lies in conversation
Handle who you provokedCannot be, cannot feel
Cannot think, cannot see
Cannot live in dignityOur life, our way
Our life, our way
Our life, our wayCannot be, cannot feel
Cannot think, cannot see
Cannot live in dignityOur life, our way
Our life, our way
Our life, our wayWe are tired of being denied
We are sick of being sick
We are feeding all our anger
We are tightening up our fistWe are failing to prevent
Our fate from disillusion
We are failing to protect
Our lives from full destructionWe are bowing all our heads
To doubtful leaderships
We are moving all our trust
To judge what is unjustCannot be, cannot feel
Cannot think, cannot see
Cannot live in dignityOur life, our way
Our life, our way
Our life, our wayCannot be, cannot feel
Cannot think, cannot see
Cannot live in dignityOur life, our way
Our life, our way
Our life, our wayExploitation, segregation
All comes crashing down
Exploitation, segregation
All that is a falling nationCannot be, cannot feel
Cannot think, cannot see

Cannot live in dignityOur life, our way
Our life, our way
Our life, our wayCannot be, cannot feel
Cannot think, cannot see
Cannot live in dignityOur life, our way
Our life, our way
Our life, our way
