# Sticks & Stones

## CASS

I hear an army rising up
Like a rocket taking off
For the battle You have won
Breathe in meDust arising standing up
Life awakened through Your love
For the battle You have won
Breathe in meStick and stones
May break my bones
But only You can make these bones
come aliveStick and stones
May break my bones
But only You can make these bones
come alive
Only You can make these dry bones
come aliveI hear an army rising up
Like a rocket taking off
For the battle You have won
Breathe in meDust arising standing up
Life awakened through Your love
For the battle You have won
Breathe in meStick and stones
May break my bones
But only You can make these bones
come aliveStick and stones
May break my bones
But only You can make these bones
come alive
Only You can make these dry bones
come aliveDry bones, dry bones
You will breathe life in themDry bones, dry bones
You will breathe life in themDry bones, dry bones
You will breathe life in themDry bones, dry bones
You will breathe life in themStick and stones
May break my bones
But only You can make these bones
come aliveOnly You can make these dry bones
come aliveStick and stones
May break my bones
But only You can make these bones

come aliveOnly You can make these dry bones
come alive
