Reactor

The Explosion

Dear first offender we hope that you'll surrender
We'll get you in the end, we'll get you in the end
Dear young protester we hope this callous gesture
Will slow down those convictions you defendWe're watching and waiting
For those signs of warning
So watch where you're going
Yeah, yeah, yeah, yeahDear young reactor think about your future
Or this is where it ends, or this is where it ends
Dear silence breaker you've made a big mistake
And we'll make sure it's the last one that you makeWe're watching and waiting
For those signs of warning
So watch where you're going
Yeah, yeah, yeah, yeahDear sons and daughters of this new world order
This is not a test, this is not a test
Dear young reactor, we're gonna pull you under
You know it's for the best, you know it's for the bestWe're watching and waiting
For those signs of warning
So watch where you're going
Yeah, yeah, yeah, yeahWe're watching and waiting
For those signs of warning
So watch where you're going
Yeah, yeah, yeah, yeah
