Not Alone

The Briggs

Clenching this steel, I know that I'm certain
Is everyone in place? Let's open the curtains
But before you go on, let me ask you this question
Does a voice make a sound if there's no one to listen?
And as it started she said, I may just be guessing
But somewhere in the feedback must be a messageWe'll stay just for today
Together we say, you're not alone
With all these choices
We all live with, you're not aloneMiles away, I can't hear myself think
Just one more shot to help make the pain sink
And another rest stop, another last phone call
Forgot to say happy anniversary
And I can't hear the noise, I'm used to these engines
It's gotten to the point, I can't hear anythingWe will stay just for today
Together we say, you're not alone
With all these choices
We all live with, you're not aloneBut it's all fading fast, fun while it lasted
This mountain of dust, this hard rain of ashes
But if something was done to give us this problem
Then somewhere there are those who know how to solve themWe will stay just for today
Together we say, you're not alone
With all these choices
We all live with, you're not aloneJust for today
Together we say, you're not alone
You're not alone, you're not alone
You're not alone, you're not alone
