I Remember You

Chixdiggit!

I remember you
The best friend of the girl I dated
I'm the guy that you forgot you hated
Let's see what's going onShe moved to Montreal
And found religion with some creepy pastor
If you see her could you maybe ask her
About my Vuarnet shirt?We had lots of fun while you grimaced from the sides
We got good at love and you got good at rolling your eyes
Could it be Christine
They removed more than your spleenI think of her a lot
I wonder if she thinks about me
Is there a chance that we could remake history?
Well you say probably notWell that's not too surprising
You thought I knocked her up
But it ain't just me that's bad at swimming
You got a lot of stuff to lose by winning
So you don't even tryWe had lots of fun while you grimaced from the sides
We got good at love and you got good at rolling your eyes
Could it be Christine
They removed more than your spleenWe had lots of fun while you grimaced from the sides
We got good at love and you got good at rolling your eyes
Could it be Christine
They removed more than your spleenWell, I remember you
The best friend of the girl I dated
I'm the guy that you forgot you hated
Let's see what's going on
