

# I.D.I.O.T.

## Mudvayne

Through my skin you climb  
To my eyes  
I say goodbye  
Now that you're on the inside  
Blinded eyes in front of you hide  
Fucked with me  
I was an idiot  
You fucked with me  
And I haven't done shit  
All about everything that I'm against so fuck this I don't need your shit  
Life is pain and pain is my life  
Life is pain and pain is my life  
In your mind I was just a novelty  
So does this define how you feel towards me  
Do unto me what has been done to  
You feed off the pain that's been reproduced  
Fucked with me  
I was an idiot  
Fucked with me  
And I didn't do shit I fuckin' hurt so bad now  
So I think I'll just lie down...  
I don't need you I just need me  
I don't believe in you, so don't believe in me  
Pain pain go away, come again some other day  
Pain pain go away  
Don't need this mother fuckin' shit, now anyway  
I don't need you I just need me  
I don't believe in you, so don't believe in me  
Life is pain and pain is my life  
I don't need you I just need me  
I don't believe in you, don't believe in me
