

# Blind Hatred Finds a Tit

## Agoraphobic Nosebleed

You let me hit you  
So I won't touch the children  
So how hard do I have to fuckin' beat  
You to have a crack at the kids? Looks like you fell down the stairs  
On the way to the hospital again  
And not soon enough  
And not soon enough I have a coat hanger abortion lined up  
For our six year old sweet little princess  
Before the bandages come off your eyes
