

# Silent World

[Donna Lewis](#)

If I could put you, on top of a cake I would ice you and keep you,  
    Wrapped up in a box to be  
Near you if I could I wouldIf I could touch you, again with my fingers so gently if I could  
    Feel you, breathing in time next to  
    Me but the silence surrounds me, flashing memories of you, riding  
    With the moon that night. I  
Never had the chance to say goodbye goodbyeLost, forever, lost to another world  
    Gone, forever, but remembered in our thoughts  
    You are  
If I could open, the heavens above I'd be with you if I could hold  
    You, again in my arms I would  
    Tell you thatI love you
