

Ever Wonder

Winger

Ever wonder who you are
It's been a mystery from the start
Your souls a changin' change of heart
But now your souls just torn apart
Face to Face With Your Judas
You can never take it back
Ever wonder who you are
Ever Let it get to far
And do you
Ever crash when you free fall
Ever stop to feel it all
And do you wonder.....
Ever sleep the day away
Life ain't the same it's turned to grey
Kill what you love like it's a game
and watch your world go up in flames
Face to face with your brutus
You can't erase the past
Ever wonder who you are
Ever let it get to far
and do you
Ever crash when you free fall
When will you stop to see it all
and do you
Ever walk behind these walls
Can you ever mend this great divide
Back to Back with your honor
Will you turn and face the truth
Ever wonder who you are
Ever let it get too far
And do you
Ever crash when you free fall
Ever wonder who you are
Ever let it get to far
and will you
Ever walk beyond these walls
Will you stop to see it all
And do you wonder
What do you wonder
