

# A Little More Jesus

Erica Campbell

I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
Hey I need just a little more Jesus  
I need just a little more Jesus  
To help me along the way Oh I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
Oh I need just a little more Jesus  
I need just a little more Jesus  
He-e-ey, to help me along my way Oh  
Help Me  
Anybody need him  
Hey I got to mad and I said to much  
Went too far and I almost cussed  
No my mama didn't raise me that way  
Lord I need a little help today I went too sad and I'm crying to long  
I can't keep sin everything is wrong  
Yes my life seems way too hard  
But ain't nothin' too hard for God I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
Hey I need just a little more Jesus  
I need just a little more Jesus  
To help me along the way I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
I need just a little more Jesus  
To help me along the way Hey Problems at work and problems at home  
Won't everybody just leave me alone?  
I can't fix you cuz I'm trying to fix me  
I'm trying to find help so I'm on my knees Gotta ache right here, pain right there  
Not enough power needed way more prayer  
Seems like it's so hard to pray

Yes that's why I lost my way Said, I need just a little more Jesus

I need just a little more Jesus

I need just a little more Jesus

I need just a little more Jesus

I need just a little more Jesus

I need just a little more Jesus

To help me along the way I need just a little more Jesus

I need just a little more Jesus

I need just a little more Jesus

I need just a little more Jesus

I need just a little more Jesus

I need just a little more Jesus

To help me along the way To help me along the way

To help me along the way

To help me along the way

To help me along the way
