The Human Condition

Irate

Why are we here?
A question no one will ever answer!
So think So think for your fucking self!
Don't believe
Something just because someone told you to and
Don't be scared into living someone else's Way

Don't just say
The things you're suppose to say speak for yourself
And never give that right away

I'm so sick
Of hearing people say
How i should How i should live my life
And if i don't follow their rules
I will suffer the consequence
I will live the way I want to and there's nothing you can say or do
That will change the way i think
So save it for someone else

Never be afraid to open up your mind
And look at the world through someone else's eyes
This is something you should never forget
If so, then this is not really your life anymore

Don't just say what your supposed to say speak for your self
And never give that right away

Don't just say the things your supposed to say speak for yourself
And never give that right away
Speak for yourself!
