The Mandators

INFLATION

Victor Essiet and The Mandators

Cost of living is rising
Rich and the poor dem a crying
Someone must come save this situation
Tell ya I and I awake to fight inflation O oh!

Chorus:

What inflation!
Blowing across the nations
What inflation!
Hitting the people so hard.
What inflation!
Blowing across the nations
What inflation!
A hitting the people so hard, so hard, so hard!

Gat to know the past we're going through
We got to understand the present time
Corruption brings inflation
Inflation brings starvation
Starvation come bring tribulations
Tribulations come waking the nation
Come away let's chant down this Babylon system:
Wo hoi! Wo hohoi! Wo hoi!
(I tell ya) wo ho ho ho hoi!

We gat to gear up and gear up to find
Solutions to the nation problems
Yes, we gat to gear up to find
Solutions to the world crises
People no get no food 'pon dem table to eat -
People no get no shelter 'pon dem heads
While there are so much weapons of war
Just to fight and destroy the nations
How we go do about high cost of living?
We gonna stand save this situation
(Before it get out of hand)

Tell you I and I gonna fight inflation, oh!

Chorus:

What inflation!

Blowing across the nations

What inflation!

Hitting the people so hard.

What inflation!

Blowing across the nations

What inflation!

A hitting the people so hard, so hard, so hard!

People no get no jobs for themselves

Dem a embarking on war of reccession

Super power keep wasting resources

Financing weapons of fear

Who's gonna die?

Who's gonna live?

When they come are we all go die

Africa go die

A- Europe go die

Asia go die and Africa go die e!

Till the world will perish

None will bring the end

For the human race

None will bring the end

For the human existence

But Jah will bring the end for the nuclear power

Jah Jah will bring the end for the missile store

Take it or leave it!

What a human Armageddon o!

A dis a human Armageddon !

A lot of evil inflation a!

A lot of evil inflation a!

A dis a human Armageddon

A dis a human Armageddon

So much evil inflation a!

It feels so bad (Crises)!

Oh no! no! Pally

In a shally

No good shally

Palace coup in Africa

Oil price war everyday

Letter bomb in Nigeria

Radiation explosion in Russia
But they no fight inflation
(I tell you) fight inflation o!

Chorus:

What inflation!
Blowing across the nations
What inflation!
Hitting the people so hard.
What inflation!
Blowing across the nations
What inflation!
A - hitting the people so hard, so hard, so hard!
