

Tourniquet

[Jeremy Messersmith](#)

When I see you crying
If your tears run out
I will lasso you a thunder cloud When you're tired of trying
I won't stay away
I don't care what other people say When there's nothing left to do
I pull you close and wrap my arms around you No, I won't let you slip
I'll be your tourniquet
No, I won't ever quit
I'll be your tourniquet When you've been forgotten
Labeled left for lost
Given up, knocked down, and written off
When you feel like dying
Think you won't be missed
I will be there in an ambulance When there's nothing left to do
I pull you close and wrap my arms around you No, I won't let you slip
I'll be your tourniquet
No, I won't ever quit
I'll be your tourniquet
(repeated until the end)
