

breakin down

Skid Row

What was it you once said
That there would be things in life that couldn't be
Not for a second did I believe you
Not for a minute did I believe that Within your need you lie alone
This empty space you call your home If you just let me in
I wouldn't let you break down
I'm breakin' down As if you thought the rain could wash away the day
And could heal you
Not for a second did I believe it
Not for a minute did I believe that Within your need you lie alone
This empty space you call your home What was it you once said
That there would be things in life that couldn't be
Not for a second did I believe you
Not for a minute did I believe that
