

# The Source

## Liquid Soul

Morning comes and I'm up on time again  
Upon getting up and I'm down on what I got up for  
It's been a long time my friend  
Boring, dumb, and fine  
So why you wanna bring that up  
You haven't changed, neither have II feel it started at the source  
What is it that makes you cry and why?When you see a documentary and know the outcome  
You still hope Hitler will blow up  
And that it's fucked  
And that Kennedy will duck  
I feel it started at the source
