

# Long Ago

## The Blank Tapes

Long ago in a different home  
I was sitting on my hands all day  
It wears me down when I hang around  
I wonder if I'll ever change my way

Long ago on a different road  
I was traveling on the darkest night,  
But the road would wind,  
But the moon did shine,  
And I knew I'd make it all all right

Long before I was something more  
I was looking for my place to be,  
But I saw so much,  
But it was out of touch,  
Now I'm home wherever I will be
