

Wedding Song

HEIDECKER & WOOD

With every breath I breathe
I'm making history
With your name on my lips
The ages fall to bits
In flames I sleep soundly
With angels around me
I lay at your feet
You're the breath that I breathe
Some kind of violent bliss
Led me to love like this

One thousand years my dear
I've dealt without you here
In flames I sleep soundly
With angels around me
I lay at your feet
You're the breath that I breathe
You're the breath that I breathe
The breath that I breathe
Breath that I breathe
You're the breath that I breathe
