

Scarred for Life

Disarray

(Piano Intro By Billy)

Scarred for life

Scarred for life

Scarred for life

Memory, for all eternity

There forever of how it used to be

Scarred for life, try to forget the past

And if you hold your head up high

The sweet pain won't last

I can't seem to rid

this memory from my head

it's gonna rip and dig into my brain

until I'm dead

The pain and anguish just won't go away

I'm frightened to believe in God

who I just might betray

Scarred for life

Scarred for life

Scarred for life

Stigmatized, you will realize

That this fucked up world

sees through shaded eyes

Through my scars, every victim has cried

"Time will heal all of your wounds"

Who ever told me that died

I can't seem to rid this memory

from my head

Scarred for life

It's gonna rip and dig into my brain

until I'm dead

Scarred for life

The pain and anguish just won't go away

Scarred for life

I'm frightened to believe in God

who I just might betray

Scarred for life

Scarred for life

Scarred for life

Scarred for life

(c)Biohazard 1990
