Only One

Jon B.

Picture me knocking on the door, you haven't dressed yet
Back in the days yeah, baby when we just met
Picture us naked from top to toe, go straight to kissing, mhm
I got you head over heels and you grant my wishes, whoa
Just imagine girl reality is so different and so deep
How you made me wait and dissing me off this love you give to me
From the very first dance I've been going at hands
Wanting that right in front of me
So you always feel the ... the reason why
You can always count on meCall my name when you need me
You know why there's only one me
Who can satisfy beginning until the end
You already know there's only one me
What nobody else can do you right
You know I can be your everything you need
You always wait so anxiously,
You know why there's only one of me
One,
You know why there's only one of me
There's only oneYou feel the real talk, and I now I'm speaking to the ...
Wanna make her sing from inside
Wanna make you want me so much more
Uhu, wanna put you on top of the world
Turn her ... to a wonderful, whoa
Wanna warm you up like a fireplace,
Your silhouette on the wall, uhu
Not just imagine it, cause reality is like creeping to the dreams
But you let a man run ... you anticipate
All the stuff you come ... seen
From the very first ... I was all that...
running in front of me
I wanna get to always make the point
Crystal clear the reasons why
It's better than good what you get from meCall my name when you need me
You know why there's only one me
Who can satisfy beginning until the end
You already know there's only one me
What nobody else can do you right
You know I can be your everything you need

You always wait so anxiously,
You know why there's only one of me
One,
You know why there's only one of me
There's only one
