Wild Eyed

London Grammar

Sun suffocate the atmosphere
But I am safe with you far away from you
Another fire through another open door
It's what I'm living forBreath of mine be all that you need
It's not much from a broken nothing
Wear another truth on your turned-up sleeve
This is everything I dreamOh oh
He-hell no
I am wild eyed and waiting
Oh oh
Yeah hell no
I am wild eyed and wandering
Fortunately I have enough of you
You say it's not where we are
It's not what we choose
Looking out from all that you have built
With red skies I will driftOh oh
Yeah hell no
I am wild eyed and waiting
Oh oh
Yeah hell no
I am wild eyed and wandering
Oh oh
Where are your dreams?
Oh Oh, Oh yea
I am wild eyed and waiting
Oh, Oh
Yeah hell yeah
I am wild eyed and wandering
Oh oh
What are your dreams?
What are your dreams?
Ooh
What are your dreams?
