Last Love

Matrimony

You conquered me when you let me be
When you let me beThough you're my first love you're my last love
And although I am young I will never outgrow
My love for you, I will never give you upI didn't think that it was possible for me to love a man
Never thought that I would find one I'd be able to stand
The first day I met you I said I'll marry himYou conquered me when you let me be
When you let me beTake my love and take my time
Tell your love she's dear
Tell her you will marry her
She will say love you're the only man I see
The one who holds me tightly
Take my love I'll write it down
I'll tell you in your ear, your earI used to never trust a man who said he'd never give me up
I'm thinking I was right, it was a healthy disbelief
You're a man who knows how to make his words trueSo you are far away I only have your letters to soothe me
I'll be looking in your face love in this place very soon
Three long weeks so you've been gone
And now you're almost here, now you're almost hereTake my love and take my time
Tell your love she's dear
Tell her you will marry her
She will say I'm here
You're the only man I see
The one who holds me tightly
Take my love I'll write it down
I'll tell you in your ear, your ear
I'll tell you in your ear
