# Hot Tubes

## Superchunk

"what's the rush?" I heard you say
like you don't know anything about
our nervous nights, medieval days
well you can't hold anything too long
the power's out, I hope it stays
we'll be living out on the lawn
yeah we're back where we belongoh yeah
oh yeahsomething flashed before my eyes
but slow, like a hot tube glowing as it dies
cool it off, take a break
how can you, downhill speeding on a bike?
the movie slows, you stay the same
remind me what your breathing is like
your breathing is like breathingtiny towers melting down, let 'em go
tension wires coming unbound, let 'em go
tiny towers melting down, let 'em go
icy hearts melting makes no sound, let 'em gooh yeah
oh yeahtiny towers melting down, let 'em go
tension wires coming unbound, let 'em go
tiny towers melting down, let 'em go
icy hearts melting makes no sound, let 'em go
