

# Baby U Are

Julie Anne San Jose

You are my only  
You are the one  
You're everything I wanted baby  
I should have told you  
That I love you  
Oh nothing  
Compares to you  
I'm crazy thinkin' 'bout you lately  
You and I are meant to be  
And baby this is real  
Every time you turn around  
And walk away I just can't resist  
And wishing I could say  
You are my dream  
You are my hope  
You are my love  
And baby you are my heart  
I want you to know  
And let it show  
That I'm in love  
Every time I see you near  
I wanna be close to you  
And how can it be  
'coz I know it's impossible to make it happen  
But still you are  
You know you had me with your beautiful smile  
It's always in my head  
Can't get you off my mind  
You got me fallin'  
Maybe someday I'll be with you  
You'll say the words  
I'd love to hear  
Because I need you here  
And now so everything  
  
'Cause you are my dream  
You are my hope  
You are my love  
And baby you are my heart

I want you to know  
And let it show  
That I'm in love  
Every time I see you near  
I wanna be close to you  
And how can it be  
?coz I know it's impossible to make it happen  
But still you are  
You are my dream  
You are my hope  
You are my love  
And baby you are my heart  
I want you to know  
And let it show  
That I'm in love  
Every time I see you near  
I wanna be close to you  
And how can it be  
?coz I know it's impossible to make it happen  
You are my dream  
You are my hope  
You are my love  
And baby you are my heart  
I want you to know  
And let it show  
That I'm in love  
Every time I see you near  
I wanna be close to you  
And how can it be  
?coz I know it's impossible to make it happen  
And I'll wait for you to say  
That you love me  
But still you are  
Baby you are
