Left Only With Love

Smog

Im left only with love for you
You did what was right to do
And I hope you find your husband
And a father to your childrenCause Im left only with love for you
You did what was right to do
And I hope you find your husband
And a father to you childrenWhen I lost you, I lost my family
You did what was right to do
And I hope you find your husband
And a father to your childrenCause Im left only with love for you
You did what was right to do
An I hope you find your husband
And a father to your children
