

# Left Only With Love

## Smog

Im left only with love for you  
You did what was right to do  
And I hope you find your husband  
And a father to your childrenCause Im left only with love for you  
You did what was right to do  
And I hope you find your husband  
And a father to you childrenWhen I lost you, I lost my family  
You did what was right to do  
And I hope you find your husband  
And a father to your childrenCause Im left only with love for you  
You did what was right to do  
An I hope you find your husband  
And a father to your children
