

Refugee

Camel

There's a rumour flying through the air;
Paranoia's creeping everywhere.
You're gonna raise a wall -
to draw the line. You say you've got your reasons
I hear them all the time
You say it's talking treason
and a crime...
to question why. Don't you know I've seen this all before?
History repeats itself once more.
I don't want to go -
and I can't stay. You say you've got your reasons
I hear them all the time.
You say it's talking treason
and a crime...
to question why. I don't want to be a refugee,
I just want a single guarantee.
I don't want to be a refugee,
I just want the right to disagree.
