

Crawl Piss Freeze

Thin White Rope

People are gonna crawl when they hear her call
People are gonna crawl if they walk at all
People are gonna piss when they see what they missed
People are gonna piss because she exists

People are gonna freeze, they will not feel a thing
People are gonna freeze for getting rich off her disease
People will start again whether they break or bend
People will start again and so will my friend

(...Now then, everything's really beautiful)
