

Devil

Super Junior

English Translation:

(Hey Hey Well.. Hey Hey) What I'm about to say might sound strange
I don't know why but you're a bit hard for me, I'm always struggling
I want you so bad, oh baby baby please don't go
Everything, even kneeling before you feels so natural now I keep begging you, endlessly
Dammit, I can't even fall asleep
I can't figure out what this feeling is You're cold and hot, devil
Like a midsummer rain shower
After drenching my hot body, you burn up my throat again
You're the salt of the faraway desert, a shadow of the red hot equator
You make me taste a moment of pleasure then you burn up my throat again
You're cold and hot One day, when you're lonely and crying
I'll wipe away those tears, if you would allow me
The stars show my fate and now I desperately want you
All day, I'm in desire and despair, everything is just so amazing No word is enough to describe this
A bit more complicated than romantic
I can't figure out what this feeling is You're cold and hot, devil
Like a midsummer rain shower
After drenching my hot body, you burn up my throat again
You're the salt of the faraway desert, a shadow of the red hot equator
You make me taste a moment of pleasure then you burn up my throat again
You're cold and hot My throat is burning up, I wanna taste the wet you
Listen to me (listen to me)
Accept me (accept me)
I say, I just like it all (I just like it all)
I say, I like everything about you (I like everything about you)
And I say, beautiful you (beautiful you)
And I say, be mine You're cold and hot, devil
Like a midsummer rain shower
After drenching my hot body, you burn up my throat again
You're the salt of the faraway desert, a shadow of the red hot equator
You make me taste a moment of pleasure then you burn up my throat again
You're cold and hot You're cold and hot
You're cold and hot
You're cold and hot You burn up my throat, you're a devil, so hot Romanized:
