

# Keys to My Heart

## Lonestar

Here's the keys to my heart, honey, drive me crazy  
Take me anywhere you wanna go  
Here's the keys to my heart, honey, drive me crazy  
Fill it up with love and let it roll I gotta admit it's been wrecked a time or two  
A little T.L.C and it'll be brand spanking new  
Honey slide on in, I'll let you take it for a spin  
You'll like the way it feels when you get behind the wheel Here's the keys to my heart, honey, drive me crazy  
Take me anywhere you wanna go  
Here's the keys to my heart, honey, drive me crazy  
Fill it up with love and let it roll If you hear little knocking it might be skipping a beat  
When it's hugging those curves, it might just overheat  
It's got a lifetime guarantee, a hot rod built for speed  
So go ahead and let it fly, you'll love the way it rides
