Take Care

[Backstreet Boys](#)

I, I've waited all my life
To step out from the light
And see the shadows fading.
You, you've always stood so tall
I've never thought you'd fall,But now it's you that's fading!
Pre-Chorus:
I know that inside you're delicate
But you say that
You don't need someone to take care of you, but
Chorus:
I, I, I take care of you, you, you
Take care of!
I, I, I take care of you, you, you
Take care of you!
Oh, oh, oh so you want, there's no need to want
Stand up face to face the stage
Up high, but we'll reach higher!
I will tell the soul if you cry
I can hold you, why you're crying now?
Pre-Chorus:
I know that inside you're delicate
But you say that
You don't need someone to take care of you, but
Chorus:
I, I, I take care of you, you, you
Take care of!
I, I, I take care of you, you, you
Take care of you!
Take care of you!
I know that inside you're delicate
And, I, I take care of you, you, you
Take care of!
Baby, baby, baby
I, I, I take care of you, you, you
Take care of you!
Take care of you!
