Blue Water

Poco

Take the water, blue water
Can you see how far it is from flowin' free? Can we let it just be?
Without a feelin' of bein' just a little guilty, alright
Get your water, green water eipe your eyes in it, still isn't very clear
It wouldn't be wise to get too near save the cause of your own true fearYes I remember when , when it turned the bend in a natural way
It seems there was a time in my mind when it caught the light of day
I want to see it talkin' back to the sun
I need to feel it wild and on the runAnd I remember when, when it turned the bend in a natural way
It seems there was a time in my mind when it caught the light of day
I want to see it talkin' back to the sun
I need to feel it wild and on the runC'mon and get your water, blue water
Can we settle for what you can give?
Sure and behold you're without the need to live
And you're changin' wind may bring you back to blue again
I'm havin' a time tellin' my children when, yeah
