

# Dead Trees

## From First to Last

Here we are in the ashes of my desire  
All the pieces fall from my chest down into the fire  
Wait, wait, hold on to a feeling so good  
Hold a ... pieces we're scattering burning so hot

...

You were everything that was killing me but I survived  
Now you're just a memory stuck in the history of my life  
My life

I wanna know for is it so ... like what you've ...  
I wait impatiently to get away, look at the clock, get away from me

(Woah oh ah, woah ah ah ah)  
You were everything that was killing me but I survived  
(Woah oh ah, woah ah ah ah)  
Now you're just a memory stuck in the history of my life  
We live, we bleed, we die  
The love we shared is now a lie

Here we are in the ashes of my desire  
All the pieces fall from my chest down into the fire  
Into the fire

(Woah oh ah, woah ah ah ah)  
You were everything that was killing me but I survived  
(Woah oh ah, woah ah ah ah)  
Now you're just a memory stuck in the history of my life  
You were everything that was killing me but I survived  
(Woah oh ah, woah ah ah ah)  
Our love is just a memory stuck in the regret of the fight  
We live, we bleed, we die  
The love we shared is now a lie
