

In the Shade

Labyrinth

Livin' in a wasteland
without any shadows
what's left for me to see?
I wonder with my soul Your Angel-eyes are shining bright
I wanna take your hand
All I know is I can't live with you In the shade, I will remember
In the shade, I will remember Fear lives inside your mind
(but) my dream is still alive
and I'm never looking back
I'm dreaming peace and love Find you lost in any place
I'm miles away
I'll be searching high and low In the shade, I will remember
In the shade, I will remember In the shade, I will remember
In the shade, I will remember [Music: Mangnani, Tordiglione, Cantini]
[Lyrics: Tordiglione]
