

# Zombies Attack!!!

## Americans UK

It starts like any other day:  
People at work or off at play.  
At an unknown location,  
A canister is broken,  
Uncanny fumes infect the dead.

Zombies attack!!!

Infection spreads as fast as flames!  
Corpses shuffle in search of brains!  
If you are scratched or bitten,  
You will number among them,  
Hunger replaced humanity.

Zombies attack!!!

You left your shotgun in the shed!  
The yard's littered with walking dead!  
They're visages are frightening,  
Necrotic flesh is tightening,  
As their eyes roll back in their heads!

Zombies attack!!!

Brains! Brains! Brains!
