

# The Way I Am

## Thursday Night Fishing Club

Everywhere I look I see disease  
Seems like the world was taken from me  
Time seems to be tick tick ticking away  
Forgive me for all, all the things I say  
Will you leave me there  
The way I am  
Interpretations of the day  
The way I am  
Deliverered from the gray

Something makes me want to believe  
Nothing in life was given to me  
Cannot ever stick to this game  
Everyday, everything the same  
Time has a way and now I see  
What happened to all, all of my dreams  
Now and then I feel incomplete  
But I won't live my life in defeat
