

# Fair Exchange

## Folkland

Your credit is good if you're a member  
Just a token to help the people remember  
All we've done for you, nobody buys and nobody sells  
Nobody speaks 'til the chairman tells you

We're gonna be your religion, throw those others away  
Fair exchange for your freedom  
Fair exchange for your life  
Hail the new perfect order  
Ending trouble and strife

No one can refuse our offer, it's a fair exchange  
You're on file, our computer, knows what's best for you  
We will provide the solution, for the rest of you  
Safety and peace, the terror will cease  
Forget everything the fanatics tell you

Now you can worship the leader, all he wants, is your soul  
Fair exchange for your freedom  
Fair exchange for your life  
Hail the new perfect order  
Ending trouble and strife

No one can refuse our offer, it's a fair exchange  
We're under control, never worry, always watching you  
Now you're a part of the program, we'll be using you  
What do you want? We know what you need  
Get out of line, we eliminate you

All for the good of the people, better one man should die  
Fair exchange for your freedom  
Fair exchange for your life  
Hail the new perfect order  
Ending trouble and strife  
No one can refuse our offer, it's a fair exchange
