

We Are Alive

Elevation Worship

Verse:

You came to change the world

You came, it was the only way for us to be restored

You came to make us new

You came to warm our dying hearts and bring us back to YouPre-Chorus:

And when You came, You broke our chains

And You lifted us out of our gravesChorus 1:

We are alive because You died

You buried our shame, when you rose from the grave

You became man, and You conquered our sin

So we'll live this life to celebrate, celebrate Your nameVerse: You came to save the world

You came because You loved enough to fix what we destroyed

You came into our hearts

We were falling down until You came and rescued usPre-Chorus:Chorus 2:

We are alive because You died

You buried our shame, when you rose from the grave

You became man, and You conquered our sin

So we'll live this life to celebrate, celebrate Your name
