

First to Never Know

Julie Roberts

I just passed a cheap motel sign
I think I'll stop here and stay the night
First one alone in a long time
The right thing to do's not feeling right
Bright and early, I'll be movin' on
Put a few more miles between us 'til I'm finally gone
Well, I might go to Vegas or somewhere where it snows
I might end up in Dallas on some ol' dusty road
On the coast of Carolina, who knows where I'll go
But when I find out, you'll be the first to never know
I gave up more than you know
Let you follow your dreams, put mine on hold
Gave you my love, gave you my soul
But in return you cheatin' left me cold
Your lies ain't worth one single tear
One thing's for sure I'm outta here
Well, I might go to Vegas or somewhere where it snows
I might end up in Dallas on some ol' dusty road
On the coast of Carolina, who knows where I'll go
But when I find out, you'll be the first to never know
Well, I might go to Vegas or somewhere where it snows
I might end up in Dallas on some ol' dusty road
On the coast of Carolina, who knows where I'll go
But when I find out, you'll be the first to never know
Yeah, when I find out
You'll be the first to never know
