Always In The Way

Ol' Paint

You know what you're after, I don't know at all
I stumble and I fall to reach a light
Then I find an answer, but maybe anyhow
I cling too much and then I get put out

But love got in the way of things I tried to say
WIth every passing day

Maybe I'm too truthful, could be but it's sad
I give alot don't get much and that's bad

But love got in the way with every passing day
There's nothing I can say

Every time that I reach out I know
Someone's watching a well rehearsed show
A play that could wet the driest eye

And will someone always say...you're love got in the way
