

# Chase You Down

## RUNAGROUND

Ooh-ooh, don't let it slip away  
Ooh-ooh, won't let it get away

Can you hear me right now?  
I got your number, and I'm calling you out  
With liquid courage I can leave my doubt  
You're not alone, so I'm chasing you down  
Chasing you down.

Can you see me right now?  
I'm coming closer. Think I figured you out  
Not like the others; you don't play with the crowd  
I've blown your cover, now I'm taking you down  
Taking you down.

Can you hear me right now?  
I got your number, and I'm calling you out  
With liquid courage I can leave my doubt  
You're not alone, so I'm chasing you down  
Chasing you down.

Ooh don't it get away  
Ooh won't let you slip away

Can you see me right now?  
I'm coming closer. Think I figured you out  
Not like the others; you don't play with the crowd  
I've blown your cover, now I'm taking you down  
Taking you down.

Can you hear me right now?  
I got your number, and I'm calling you out  
With liquid courage I can leave my doubt  
You're not alone, so I'm chasing you down  
Chasing you down.

Can you see me right now?  
I'm coming closer, think I've figured you out  
Not like the others, you don't play with the crowd  
I've blown your cover, now I'm taking you down

Taking you down

Ooh-ooh, don't let it slip away  
Ooh-ooh, don't let it get away  
Ooh-ooh, don't let it get away  
Ooh-ooh, won't let you slip away

Can you hear me right now?  
I got your number, and I'm calling you out  
With liquid courage I can leave my doubt  
You're not alone, so I'm chasing you down  
Chasing you down.
