Shake It Off

2014 Golden Cove

There is no room to breathe
I am under water
I can't stand to take the heat
And it's getting hotter
'cause all that I
Am dying to hold onto
Is slowly digging me a grave
Gotta get away

Shake it off
Whenever I'm on the edge of giving in
Shake it off
'cause nothing can keep me down when I'm living in
Love with You
So help me God to
Shake it off
Shake it off

I am under attack
And I've had enough
Of all these bricks on my back
So I'm letting go of
All the weight
That I've been holding onto
Turn to dust disintegrate
Get away

All this baggage I've kept around
Make it shatter on the ground
'cause all that matters now
Is You!
