Another Lonely Night

Blue System

My tears will never dry
Oh no, for sure, baby
Oh, give me one try
I keep my love alive
How do my love survive?Oh, it's a nighttime world
To heal the pain, baby
If you can't love me, girl
I'll be the sun again
Come baby, be my friendIt's an another lonely night
A lonely night in paradise
See my emotion, a lonely night
Where everything is cold as ice
See my devotionKnock three times
If you feel the fire
Take my heart and feel desire
Take me in your heart
And stay tonightOh, let me love you, girl
Come feel my heat, baby
Oh, it's a different world
Oh baby, feel the need
It's like a burning heat
