

Pornography

Client

I'm so tired of this, it brings me down
I'm nothing when you're not around
You know you're obsessed and I am too
'Cause we're the same in the things that we do And I love the way you talk to me
And I love your own philosophy
And I love the way that you want me to
This is our time, I can't refuse It's you and me, monogamy
Just you and me, pornography It's everywhere in everything
Every day I'm not promising
We don't have to be good or play by the rules
'Cause we're the same in the things that we do And I love it in the morning
And I love it in the evening
And I love the way that you want me to
This is our time, I can't refuse It's you and me, monogamy
Just you and me, pornography
It's you and me, monogamy
Just you and me, pornography And I love the way you talk to me
And I love your own philosophy
And I love the way that you want me to
This is our time, I can't refuse It's you and me, monogamy
Just you and me, pornography
It's you and me, monogamy
Just you and me, pornography
